# ABOUT GSAF

At Prism Events, we believe that the experts who are driving change in the food industry can play a vital role in helping to meet the sustainable development goals of ending hunger, achieving food security, and amplifying sustainable agricultural practices around the world. Along with this, we noticed that this industry has been particularly sluggish in adapting to innovations and new technologies, and the lack of forums for food distributors, suppliers, and manufacturers is inhibiting its growth.

Given the unavailability of a common platform where these issues can be discussed, we decided to take charge. GSAF 2021 will bring together individuals and organizations to facilitate discussions that will ultimately boost productivity, sustainability, and finally, profitability, in the realms of everything related to food!
